

Application No. 10/710,867
Docket No. A4-1812
Amendment dated November 23, 2005
Reply to Office Action of September 26, 2005

Amendments to the Specification:

Please replace the title of the invention at page 1 with the following amended title:

WEB FINISHING METHOD AND SYSTEM FOR
MANAGING TENSION AND MAINTAINING
REGISTRATION BETWEEN MULTIPLE WEBS IN A WEB
FINISHING SYSTEM

Please replace paragraph [0011] with the following amended paragraph:¹

Figure 1 shows a pair of primary and secondary webs of the type that are preprinted and rewound following a printing and drying operation, and shows print image repeat lengths of the secondary web differing in length from print image repeat lengths of the primary web in accordance with the prior art.

¹ The USPTO authoring software automatically placed the page and paragraph numbers in Applicants' electronically-filed application, and as such the pages and paragraphs of the Examiner's and Applicants' copies of the application should be identically numbered. To avoid confusion, all references to pages and paragraphs in the application will cite the page and paragraph numbers on Applicants' copy of the electronically-filed application.
